Information technology 1.9%
Other assets (liabilities) 0.5%

How risky is it?

The value of the fund can go down as well as up. You could lose money.
One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating
Mackenzie has rated the volatility of this fund as low to medium.
This rating is based on how much the fund’s returns have changed from year to year. It doesn’t tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund’s returns, see the “What are the Risks of Investing in the Fund?” section of the fund’s simplified prospectus.

No guarantees
Like most mutual funds, this fund doesn’t have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how QF Series securities of the fund have performed since inception. Returns are after expenses have been deducted. These expenses reduce returns.

Year-by-year returns
The information is not available because the series is new.

Average return
The information is not available because the series is new.

Who is this fund for?
Investors who:
- are looking for a European equity fund to hold as part of their portfolio
- want a medium- to long-term investment
- can handle the ups and downs of stock markets and investing in a single region

A word about tax
In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan, or a Tax-Free Savings Account.
Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?
The following tables show the fees and expenses you could pay to buy, own and sell QF Series securities of the fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges
You can only buy this series of the fund under the no load purchase option. No sales charges are payable by you under this purchase option.

2. Fund expenses
You don’t pay these expenses directly. They affect you because they reduce the fund’s returns.
The fund’s expenses are made up of the management fee, fixed administration fee, other fund costs and trading costs. The series’ annual management fee is 1.10% of the series’ value. The series’ annual fixed administration fee is 0.28% of the series’ value.
Because this series is new, other fund costs and trading costs are not yet available.

3. Other fees
You may have to pay other fees when you buy, hold, sell or switch securities of the fund.

Fee What you pay
Switch fees If you switch between series of the Fund or to another fund within the Quadrus Group of Funds, then you may pay your representative’s firm a switch fee of 0-2%.

Inappropriate short-term trading fee
A fee of 2% of the amount switched or redeemed will be charged by the Fund for inappropriate short-term trading.

Excessive short-term trading fee
A fee of 1% of the amount switched or redeemed will be charged by the Fund if you invest in the fund for less than 30 days and your trading is part of a pattern of short-term trading that Mackenzie believes is detrimental to fund investors.

Advisor Service Fee
You may pay a service fee, which is negotiable with your investment representative and your representative’s firm, for services provided in connection with your QF Series investments. This service fee may not exceed 1.25% and will be collected by Mackenzie through redemptions of these securities in your account and then the proceeds will be remitted to your representative’s firm.

What if I change my mind?
Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information
Contact Mackenzie or your investment representative for the fund’s simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund’s legal documents.
